

2012 Denver Five Star Real Estate Agents

Five Star Professional partnered with 5280 magazine to determine the real estate agents in the Denver area who provide exceptional service and overall satisfaction. The Five Star Professional research team contacted clients, peers and industry experts, and asked if they had experience working with a real estate agent. Those who participated in the research provided the name of a real estate agent and rated that individual according to criteria such as integrity, communication and customer service. The survey data was collected and scored, resulting

in the list of 2012 Denver Five Star Real Estate Agents. The research methodology allows no more than 7 percent of real estate agents to be named a Five Star Real Estate Agent. This year's winners are listed and profiled in the following pages.

“Do everything you can to assist your clients and remember it is all an investment in your future success.”

— Five Star award winner

Research DISCLOSURES

- Five Star Professional surveyed Denver area residents who purchased a home priced at more than \$150,000 within a 8-month period (February 2011 to October 2011).
- The final list of 2012 Denver Five Star Real Estate Agents is a select group, representing less than 7% of real estate agents in the area.
- The 2012 Five Star Real Estate Agents do not pay a fee to be included in the research or the final list.
- Each real estate agent is screened against state governing bodies to verify that licenses are current, and no disciplinary actions are pending. The list is reviewed by a panel of industry experts before it is finalized. Safeguards are built into the review process to reduce the ability to influence the final list on the basis of company affiliation.
- The inclusion of a real estate agent on the Five Star Real Estate Agent list should not be construed as an endorsement by Five Star Professional or 5280 magazine.
- The research process incorporates a statistically valid sample in order to identify the real estate agents in the local market who score highest in overall satisfaction. Real estate agents are not included on the list unless their score is statistically valid.
- For more information on the Five Star award and the research/selection methodology, go to www.fivestarprofessional.com.

The Five Star award goes to less than 7 percent of real estate agents.

As broker and owner of Buildings and Residences, Brian began his real estate career more than eight years ago with a focus on building his business through client referrals. He has done this successfully by providing a great experience not only during the buying or selling process, but long after the closing occurs. "Having clients call me weeks, months or years after they buy a home to ask for my advice on a remodel, house values or for a deck specialist referral is the biggest compliment." Brian's success is also due to his market focus. An expert on downtown and urban Denver residences and investment properties, he uses his powerful negotiation

skills and unparalleled neighborhood knowledge to find the perfect fit for his client needs. "I am passionate about what I do, about the city of Denver and the experiences of living here. When that passion is translated into a great buying or selling experience, my clients tell their friends and family."

"Brian sold our first condo in record time, then found us our dream home. We continue to refer him to everyone we know!"

Excellence Is in the Details

- Serving the greater metro Denver area
- DU and Platt Park specialist
- First-time buyer/relocation expertise
- Patient, professional, personable
- Graduate, Realtor Institute (GRI)

The process of buying and selling real estate can be a daunting experience for most people. My client base is quite diverse, ranging from first-time buyers, to relocation clients, to experienced buyers and sellers who are either moving up or downsizing. My promise to each and every one of them is to make their homebuying or selling adventure as painless as possible. After closing, clients have thanked me for acting as their advocate, for knowing the real estate market and for being attentive to detail. One client thanked me for being "more of a real estate partner than just a broker." Thank you, my clients, for this recognition.

Combining our years of experience in real estate, along with Sean's background in engineering and Janet's background in the legal field, leverages our individual strengths to the benefit of each client. “Keep up with market conditions, so you are always knowledgeable.”

— Five Star award winner

2012 Denver Five Star Mortgage and Home/Auto Insurance Professionals

Five Star Professional partnered with 5280 magazine to determine the mortgage and insurance professionals in the Denver area who provide exceptional service and overall satisfaction. The Five Star Professional research team contacted clients, peers and industry experts, and asked if they had experience working with a mortgage or insurance professional. Those who participated in the research provided the name of a mortgage or insurance professional and rated that individual according to criteria such as overall satisfaction and whether they would highly recommend the professional to a

friend. The survey data was collected and scored, resulting in the lists of 2012 Denver Five Star Mortgage Professionals and Five Star Home/Auto Insurance Professionals. The research methodology allows no more than 7 percent of mortgage and insurance professionals to be named a Five Star award winner. This year's winners are listed and profiled in the following pages.

“I can still remember my first house purchase. It was scary; however, it also held the freedom of creating the home I wanted — and it also turned out to be a great investment over time.”

— Five Star award winner

Research DISCLOSURES

- Five Star Professional surveyed more than 33,000 Denver homeowners.
- The final lists of 2012 Denver Five Star Mortgage and Home/Auto Insurance Professionals are select groups, representing less than 6% of mortgage professionals and 1% of insurance professionals in the area.
- Mortgage and insurance professionals do not pay a fee to be included in the research or on the final lists.
- Each mortgage or insurance professional is screened against state governing bodies to verify that licenses are current, and no disciplinary actions are pending. The lists are reviewed by a panel of industry experts before they are finalized. Safeguards are built into the review process to reduce the ability to influence the final lists on the basis of company affiliation.
- The inclusion of a mortgage or insurance professional on the lists of Five Star award winners should not be construed as an endorsement by Five Star Professional or 5280 magazine.
- For more information on the Five Star award and the research/selection methodology, go to www.fivestarpromotional.com.

The Five Star award goes to less than 7 percent of professionals.

- Integrity — honest communication at every turn which has led to 98% of our business having come from repeat customers or those referred by clients
- Intelligence — one of the most innovative processes in the industry ensuring each client that we are going to get it right the first time
- Work ethic — I find the best, customized lending options for each client by investing the time and asking the questions that make a difference

Why nine out of 10 consumers can be wrong.

Nine out of 10 consumers prefer going to the dentist over getting a mortgage. Why? It may be the opportunity for laughing gas at the dentist; however, I suspect it is the fact that getting a mortgage in today's world requires more documentation than the U.S. tax code (6,000 pages and 500 million words). How can this process possibly be enjoyable? Your end game is what motivates me to go above and beyond with every client. It is the picture of you sitting on the porch of your new dream home, the money saved by improving your current mortgage product or simply paying off the ex

to regain control of the bachelor/bachelorette pad. While I cannot eliminate regulator red tape, it is important that we define exactly what is needed, not ask for anything in excess and be able to explain each item fully so that you understand and appreciate the *why*. Hiring the right mortgage banker is a critical financial advantage. As Warren Buffet states, he looks for three key qualities in his employees: integrity, intelligence and hard work ethic. Anything short of those three qualities can be very costly. While I cannot offer laughing gas during the process, I can assure you that the process with my team will be more enjoyable than going to the dentist.
